

Passing away of Prof. Grażyna Grelowska, an internationally renowned hydroacoustician

Prof. dr hab. Eng. Grażyna Grelowska was a scientist associated with the Naval Academy in Gdynia and the Gdańsk University of Technology . She was an international authority in the field of underwater acoustics. She died on August 30, 2022.

For many years she was a member and recently chairman of the Acoustics Committee of the Polish Academy of Sciences. In addition, she was the chairman of the Main Board of the Polish Acoustic Society. She was also a member of the International Commission for Acoustics and the Sea Research Committee of the Polish Academy of Sciences.

She held important positions in higher education: she was vice-rector for science at the Naval Academy, director of the Hydroacoustics Institute of the Naval Academy, head of the Department of Hydromechanics and Hydroacoustics at the Gdańsk University of Technology, member of the Senate of the Naval Academy and a number of academic councils and institutes.

By the decision of the President of the Republic of Poland of September 15, 2017, she was awarded the academic title of professor of technical sciences.

Professor Grelowska's scientific achievements concern various applications of acoustic methods in research of the marine environment, and the area of her activity includes, among others, work for the navy, merchant navy and environmental protection.

The course of scientific work, acquired degrees and scientific titles:

- Master of Science in Engineering, Gdańsk University of Technology, Faculty of Electronics, specialization: electronic apparatus, 01.09.1978.
- PhD, Military University of Technology, Faculty of Chemistry and Technical Physics, specialization: materials engineering, 11.07.1990.
- habilitated doctor, Institute of Oceanology of the Polish Academy of Sciences, specialization: oceanology, 28.06.2002.
- professor of technical sciences, 15.09.2017.
