

MEETING REPORT

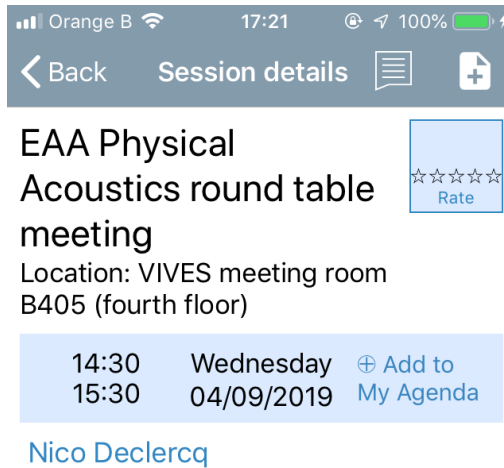

Wednesday 4 september 2019, Technical Committee Meeting on Ultrasound (TCU)

Location: Room B-405 at Vives Building, Bruges: 2019 International Congress on Ultrasonics

Meeting time: 14:30 – 15:30

First arrivals were Thierry Baasch and Jona Frankhauser from ETH Zurich. Congratulations for having arrived on time!

Announcement:

The screenshot shows a mobile application interface for a meeting. At the top, the status bar displays 'Orange B', signal strength, Wi-Fi, time '17:21', location, and 100% battery. Below the status bar is a navigation bar with a back arrow, the text 'Session details', a list icon, and a plus icon. The main content area features the title 'EAA Physical Acoustics round table meeting' in bold black text, followed by a 'Rate' button with five stars. Below the title, the location is listed as 'Location: VIVES meeting room B405 (fourth floor)'. A light blue box contains the meeting time '14:30 - 15:30', the day 'Wednesday', and the date '04/09/2019', along with an 'Add to My Agenda' button. At the bottom, the name 'Nico Declercq' is displayed in blue text.

Topics of Discussion:

Meeting:

We unanimously thank the organizers of the 2019 ICU for reserving such a professionally-looking meeting room for our round table discussion. It is very convenient.

Website:

The committee should be properly informed how to make changes and additions to the website. Who should we contact and in what format should we send information. It is important to be able to update the webpage and keep it attractive.

2019 ICU congress:

Overall it was a good congress. We should be happy.,

Some minor negative remarks that came up:

-the rooms were not always suitable, because they were too narrow and too long, with a projection screen that was too small. In addition, there were too many windows along which people passed by and therefore continuously distracted the presenters and the audience. We know that the organizers could not really change this, still we wanted to report it as a comment.

-the location of the congress was not always convenient. Most people stayed at hotels in the city center of Bruges and it was there that most of the social events took place. This was good. However, the presentations took place at Vives, which was located outside the city center and by foot it took too long to get there, renting a bike was possible but most people found that either not suitable or not practical, there were no shuttles and taxis were expensive.

Activities of the Technical Committee at ICU:

Session organizations at 2019 ICU in Bruges

Practically all sessions were organized or co-organized by members of the Ultrasonics section of EAA. So we have all been very active.
